BOSSSES FLOCK TO PEACE MEET

Attitude of Insurgent Operators Rapidly Changing

PARLEY TO BE NATION-WIDE

Strike May be Settled at Cleve- land Tomorrow

(BY HARRY G. BAKER)

CLEVELAND.—(United Press).—Break in the ranks of the insurgent coal operators of the nation ap- peared to be widening today. They were reported to be flock- ing to Cleveland to attend the coal strike tomorrow with John L. Lewis and other mine union leaders. The first breaks came in the solid line up of the Illinois and Indiana miners. Ohio operators and mine chiefs, received assurances, it was said, that a majority of the tonnage of both states will be repressed. West Virginia operators also will be here, it was said. Additional representations from the Pittsburgh district also will be present.

LARGER MEETING PLANS

That the intention of the union leaders and conservative operators was to make the conference nation- wide, became known when it was revealed that a meeting of Lewis, Al- fred M. Ogle, president of the Na- tional Coal Association and other leaders of both sides, was held in Pittsburgh Sunday. Plans for the larger meetings are said to have been worked out at the Pittsburgh conference.

No word has been received from Harry N. Taylor, president of the Southwestern Coal Operator's As- sociation at Kansas City.

This powerful group of operators, control the coal fields of Kansas, Mis- souri, northern Arkansas and Okla- homa.

The three important points to be taken up at the conference tomorrow are:

1.—A basic wage scale for the bituminous mining industry.

2.—An agreement providing that wage scale conferences begin some- time in advance of the expiration of the old scale near year, in order to avoid another strike.

3.—Selection of a commission of operators and mine union leaders to make a complete, survey of the mining industry. This commission will report back to both factions and its findings will be used as a basis for future wage agreements.

It was rumored today that an ob- server of the Pittsburgh Coal Com- pany, one of the most powerful of the insurgents, is here. This means that the group is watching devel- opments closely with a possible view of accepting any wage scale decided upon.

Fear of the federal court proceed- ure in connection with the check-off decision, was dispelled today, when it became known that the federal court of appeals had reversed the decision of Federal Judge A. B. An- derson, Indianapolis, that the system was a violation of the Sherman anti-trust law.

STRIKE FUND VOTED

FRANKFORD.—The miners' federation today voted 33,000,000 marks, about \$44,500 for the relief of the striking United Mine Work- ers of America.

The federation, however, decided on a policy of non-interference in the American strike and against limitation of coal deliveries.

NEW PEACE PLAN OFFERED

WASHINGTON.—(United Press).—A plan for settling the coal strike, which provides a new basis for wage negotiations between operators and miners for future contracts, has been submitted to President John L. Lewis, president of the United Mine Workers, and A. M. Ogle, head of the National Coal Association, by W. A. Glasgow, Jr., Philadelphia, at- torney for the miners and Ralph Crews, New York, attorney for some operators.

This was revealed here today when the National Coal Association made public a statement of Ogle, now at Terre Haute, Ind.

"These recommendations," said Ogle, "provide not only for an im- mediate settlement of the coal strike, but outline constructive plans for negotiations of all future con- tracts."

"The plan proposed by Mr. Crews and Mr. Glasgow, contemplates the establishment of entirely new ma- chinery for wage negotiations and determinations, which will not be based on the old central competitive field, nor upon some new national bases, such as rumor has intimated."

The plan as proposed no doubt will receive serious consideration by all interested parties, but will not be considered by the Cleveland con- ference nor by any adjourned meeting thereof. It contemplates action by separate states.

BATHS TOO FEW

CINCINNATI.—Charging her hus- band took only two baths in a year, Mrs. Abbie Bredwell, 32, asked for divorce from Harry N. Bredwell, 50, employee of the Union Gas and Electric Company. Mrs. Bredwell al- leges that her husband went to bed with his working clothes on.

SMASH WINDOW IN JEWELRY STORE

Brick Used in Opening Way for Early Morning Robbery

YEGGS WORK ON SOUTH SIDE

H. C. Thew Emporium is Loser —Daylight Discovery

Robbers threw a brick thru a plate glass window in a jewelry store owned by H. C. Thew, at 689 S. Main-st., and made away with over \$500 worth of jewelry, some- time early Tuesday morning.

Two diamond rings, estimated to be worth \$175 each, a pair of dia- mond earrings valued at \$75 and two gold watches priced at between \$50 and \$75 each, were taken.

The robbery was first reported, Harry Thew the proprietor of the store declared, at about 6 o'clock Tuesday morning when Pete Pelligrini, Circular-st., passed the store, saw the broken window and phoned Thew.

DOZENS MAKES DISCOVERY

At 7 a. m. police first learned of the affair when Desk Clerk Dozson, who had just gone off duty, passed the store in a street car and saw the wrecked plate glass. He alighted from the car at the corner of Main and Kibby-sts., walked back three doors to the jewelry store and in- vestigated.

Dozson then called headquarters and a plainclothesman was sent out to continue the investigation.

Police who investigated Tuesday morning were of the opinion that the hole made in the lower left hand corner of the window by a brick thrown thru it, enabled the thieves to scurry the stolen jewelry within reach. What they could get, they made away with. A large number of watches, rings and other valu- ables were apparently beyond their reach.

An attempt was made by police to establish the exact time of the rob- bery, but it failed when they were unable to locate anyone within the vicinity who had heard the crash.

Ed Kane, Yellow taxi driver, who passed the place in his car about midnight, declared that everything was in order there at that time, so far as he observed. He noted two men, he said, standing at the corner of Main and Kibby-sts., but gave them no thought.

ONE OFFICER ON JOB

No one could be found who had passed or been near the place be- tween 1 a. m. and daylight.

The south side, between the hours of 11 p. m. and 7 a. m. is protected by only one patrolman, under the system instituted recently by Chief of Police T. A. Lanker. Bruce Sod- ders, a new man, is detailed to the large area to the south of Elm-st. If the patrolman discovers anything wrong on his beat, he is under or- ders to report it immediately to headquarters.

Police were continuing the inves- tigation Tuesday.

HUSBAND NABBED, Little Girl and Six Men Are Shot

WIFE FAINTS

Young Wife Sees Louis Whitcar Arrested as Forger

Seventeen year old Mrs. Louis Whitcar, wife of a farmer near Al- ger, and her four month old baby, saw police arrest her nineteen year old husband, take him to police headquarters, Tuesday, and charge him with forgery.

Then she fainted.

Whitcar was arrested when J. K. Breslin, clothing merchant, corner Main and Kibby-sts., looked suspi- ciously at two checks handed him by the young man, who asked that they be cashed.

SUSPICION AROUSED

Doubtful signatures and hesi- tancy on the part of the young man increased Breslin's suspicions and he asked for an investigation. Police took the youth to headquarters and in short order had a charge of forgery placed against him.

Investigation brought reports of two blank checks having been stolen a week ago from the check book of the J. D. Gillespie & Son firm of contractors, at Larue, Ohio. The two checks taken from Whitcar are connected with the theft.

Whitcar denied the charge of forgery placed against him, claiming that the checks were given to him by a man whom he could not describe, for a sum of money which he was unable to name.

Both checks are written on forms used by the Gillespie firm and were drawn on the Larue Banking Co. They were both written in favor of Bruce Shepherd. One of them, dated August 4, and without a number, was issued for \$18.25. It was signed "Charley Gillespie." The other, dated August 6, and drawn for \$21, was signed "C. Harley Gillespie."

WORK IS CRUDE

The crudeness of the alleged forgery was heightened by the fact that the name "Gillespie" appears in print, in two places on each check. Neither check was endorsed. Police link the amateurishness of the alleged forgery with what they term "amateurishness" on the part of the man under arrest.

Larue authorities were notified of the arrest and were asked to come for the prisoner.

Officers at headquarters are car- ing for the young wife and her baby, while the youthful husband and father is back of the bars awaiting further disposition of his case.

RECOGNITION FOR MEXICO SEEN

Early Action by U. S. Govern- ment is Predicted

MEXICO CITY.—(United Press).—Recognition of Mexico by the United States is just around the cor- ner, political observers believed here today.

Ratification of the treaty with American bankers by President Ob- regon and the latest note from the United States, has given impetus to the talk of recognition.

Some believe that recognition will come within 90 days and others that it will come sooner. The Mexi- can congress, it is believed will back Obregon and ratify the finan- cial agreement which was drawn up in New York by Finance Minister De La Huerta and American finan- ciers.

While Obregon has not seen cor- respondents for nearly two months, it has been learned on good author- ity that he recently told a promi- nent American visitor that he be- lieved the difficulties between the United States and Mexico would soon be terminated. The Mexican press is taking an optimistic view of the situation and several papers this morning print extracts from the new note of the United States.

Mexican bankers are quoted as being pleased with the action taken on the financial treaty.

ROAD WINS ORDER

Injunction Against Strikers Granted by Federal Court

COLUMBUS.—(United Press).—A temporary restraining order was in effect today against all striking Pennsylvania Railroad shermen in the southern district of Ohio.

Under this order granted late Monday by Federal Judge John E. Sater on behalf of the Pennsylvania railroad, the strikers are restrained from interfering with the shops, traffic and other departments of the road and are permitted to have but one picket at each entrance of the various shops.

The road charged interference with interstate commerce and the United States mails.

Twenty-three hundred persons are named as defendants. The case will be heard by Judge Sater Au- gust 16.

POLICE TAKE FOUR IN AUTO THEFTS

Three Held for Stealing Car in Ft. Wayne, Ind.

Four men charged with the theft of automobiles were taken into cus- tody by Lima police early Tuesday morning.

The men gave their names as: James Clark, 29, 1145 S. Metcalf- st. Richard Vanderstall, 28, Buffalo, N. Y. Lloyd Covey, 20, Marietta, O. Lester Headley, 17, Carlington, Ind.

Clark, the Lima man, is being held for the theft of a machine more than a year ago, from R. S. Marsh- all, Main and Kibby-sts. Police re- covered the car Saturday in the possession of Oscar Zeitz, 1010 Hughes-av, who said he had pur- chased the machine from Clark.

Suspicious actions on the part of the three other men, after driving into this city in an automobile, led to an investigation by police that resulted in their arrest.

An automobile stolen from the corner of Jefferson and Calhoun- sts. in Ft. Wayne, was found in their possession, police reported.

Careful questioning revealed, police say, that the men, after taking the car, started in this direction. Six miles from Lima, they are re- ported to have confessed, they stole a pair of Ohio automobile license plates from a car parked along the road. They drove on within a mile from this city, when they discarded the Indiana plates on the car and substituted the Ohio numbers.

They stopped at the Harrod House on E. Market-st., where they first attracted the attention of Lima plainclothesmen.

Police immediately notified Ft. Wayne authorities, who will come for the trio Tuesday.

Police were unable to determine at an early hour Tuesday, to whom the alleged stolen car belonged.

Clark was bound over to the grand jury after being arraigned be- fore Judge Motter in criminal court, Tuesday morning.

TONG CHIEF SLAIN

Chinese War in New York City is Talked

NEW YORK.—(Associated Press).—Chinatown today seethed with rumors and sudden periods of panic among its Oriental population while the body of Ko Low, national presi- dent of Hip Sing, lay in state in the Tong's headquarters in Pitt-st. Ko Low died early today after Chinese men toppled him into the gutter with a bullet in his back as he left a Chinese restaurant within the bounds of Hip Sing territory across from his home.

The police who flooded the quarter scout reports that Ko Low's murder means a reopening of the wars of the past that swept Chinatown.

Hip Sing officials sat with faces as expressionless as those of waxen images, in their lodge rooms. They said little but thought much, while their men combed the city seeking the identity of their high chief's slayer.

"We don't know what it is about," said Lee Yee Hing, state president of the Hip Sing Tong, "when we find out who the killers are then we will know how to act and what to do."

APPEAL REFUSED

LONDON.—The attorney general refused today to sanction an ap- peal to the house of lords by Joseph O'Sullivan and Reginald Dunn, un- der sentence to be hanged August 10 for the assassination of Field Marshal Sir Henry Hughes Wilson. Counsel for the two men applied last week for permission to make the ap- peal.

AMERICAN LEADS

Reports Received from Interna- tional Balloon Race

GENEVA.—(Associated Press).—Latest calculations this afternoon of distance covered by the contest- ants in the international balloon race for the James Gordon Bennett cup indicated that Oscar Westover, piloting an American army balloon, was leading over Maurice Bienaimé, a French contestant.

Word was received that Westover had landed on the right bank of the Danube about thirty miles southwest of Budapest. Consequently it was estimated he appeared to have traveled the greatest distance of those thus far reported.

The Swiss balloon "Zurich" piloted by M. Muller, landed in a violent storm near Salzburg, Austria, said a message received this afternoon.

VOTING PICKS UP LATE IN DAY

Election Officials See Indication
of Normal Ballotting

MANY ATTEMPT TO SWITCH

Outpouring of Electorate in Rural
Territory

That the vote inside the city of Lima will exceed expectations based on the number of ballots cast early in the day, was predicted by Joseph M. Madigan, chairman of the Allen county board of elections at noon, Tuesday.

Early voting was light. Many workmen who usually are among the first voters, were unable to go to the polls and vote in time to get to their work, on account of the difference in time.

They are expected to vote late in the evening when the time difference will work in their favor. INCREASE IS SHOWN Increased voting after 10 a. m., Madigan said, gave evidence that somewhere near a normal vote will be cast.

Democrats, due to it is believed to the number of contests on their ticket are generally out voting known Republicans in a majority of the precincts heard from at noon. Especially is this true in north end districts.

Women are taking as much interest as men, election officials say. Women workers for both parties spent considerable time telephoning during the morning and a heavy women's vote will probably be cast during the afternoon.

Farmers are voting heavy, according to reports received by the board. In Marion township, west precinct, the vote was unusually strong. The precinct is outside the city of Delphos.

Although the legal number of ballots were sent to the precinct by the board, at noon a call came to send additional tickets.

Only 40 were then on hand for both parties and they were going rapidly, it was reported.

In other county precincts the vote was not reported to be so heavy, but was well above expectations.

First returns in the city are expected to be reported by 7 p. m., central time. County precincts will come in more slowly.

The heavier the vote, the more slowly the returns will be, Madigan says.

CHANGES ATTEMPTED Reports were made to the board from many precincts that voters registered with one party at the last election are attempting to change their political complexion.

Wherever the voters' previous politics are known election officials are instructed to hand them that kind of a ticket.

The ruling made by the board is that the voter must vote his former party ticket in the primary, but is free to switch in the election.

Candidates are redoubling their efforts in the closing hours of the race to line up all the strength possible. Automobiles were kept racing from precinct to precinct watching the way the vote is coming in.

FINE PRIMARY DAY WEATHER

Lovely day for primary voting. Candidates and the electorate at large did not perspire to any appreciable degree in their activities. However, it will be a chilly evening for lots of candidates, after the ballots are counted and results are known. Those who lose will have no cause for enthusiasm over the weather.

Fair tonight and Wednesday is the word passed out by the forecaster. Cooler in south portion tonight. Warmer in north portion. The latter proposition will get the folks in this part of the state.

Sometimes, on the day after elections, there is snow, but there is no danger of that sort of thing on the morning. Besides, it is a regular election, just a primary, and when adherents of the old parties settle the differences in their own ranks as to who shall stand finally for election in November.

GIVES RULES FOR RAISING 'EM

Father of 21 Urges Work Aplenty
for Children

McCLOUD, Cal. — (Special) — "Most folks fail in raising children because they don't make 'em work hard enough."

And, as father of 21 children, Nicholas Singley, 73, is well qualified to speak on the subject.

One of California's champion fathers, Singley holds that each household should have a minimum of six youngsters. Singley's first wife presented him with ten and his second with 11 children.

"I don't advocate that every family should attempt 21," he says. "Don't worry, I've had my little troubles. But not one of my kids was ever in any trouble more serious than the usual childish pranks."

"What's his theory?" "Well, I reared them just the way I was reared — to work. When you've got them doing that you've got them out of mischief, you're training them towards the future and you're helping out the family income."

"I've never been an advocate of whipping the kids. I've hit mine only when there was no other way of reasoning with them."

"I believe in schooling but keep them working and busy when they're not in school. That was the old system and it didn't produce any puny-pammys, gangsters and thugs, it produced men and pioneers; wives and ladies."

Singley was an early day pioneer and Indian fighter; a firm believer that hard work and long life go hand in hand.

"My father lived to be 107," he recalls. "And I expect to do as well. We didn't think 10 hours was a long day — I've worked 18 hours and it didn't hurt me."

ANNOUNCE BIRTH Mr. and Mrs. William Pummell, 1007 Holmes-av., announce the birth of a son at City hospital, Tuesday.

TOURS EUROPE IN AGED AUTO

A. B. Paine Tells of Trip Thru
France, Switzerland.

CHEAP WAY OF SEEING WORLD

Car, Bought 10 Years Ago, Used
on Journey.

(BY EDWARD M. THIERRY) NEW YORK. — (Special). — Motor tourists who go flitting up and down the country burning up vacations and week-ends are mere pikers compared to Albert Bigelow Paine, author.

Paine, who has been writing books for 30 years and is famous as Mark Twain's biographer, has just returned from France accompanied by his car. In it he made a year's tour of France and Switzerland, covering the same route he took in 1913.

Yes, with the same car. No, it isn't a flier. Nor what is called a big car, either. "I've had that old bus more than 10 years," he says. "She's gone more than 50,000 miles—and I know and love every rattle in her. I call her 'Queen Victoria,' because of her long reign."

Paine wrote a book about the first trip, "The Car That Went Abroad," and he did the trip again to find out what the car could do and to see how the war had changed France. CAR SLIVERS—FRANCE, TOO. "The car stood the trip—and so did France," he says. "Travelers who say the country or the people are different since the war get a mistaken idea because they only visit the big cities and the resorts."

"Anybody who says the French people hate America and do not appreciate our work in the war is absolutely wrong. Out in the villages they revere America and Americans."

Another thing Paine found out was that you can leave an auto standing in the streets indefinitely—in small towns, not in Paris—and not even bags or robes will be stolen.

"Gasoline cost about twice as much as in America," he says, "but traveling was cheap, because there was no garage rent and I lived in village inns—rooms and three meals a day—for from \$1.25 to \$2 daily."

There are handicaps, however, to European motoring. If you take your own car over, the freight, including cost of a packing, will be at least \$400, Paine says and you will have to put up a cash deposit at the French port of entry guaranteeing you will not sell the car in that country.

When you take the car out you get your money back. The deposit required is 60 per cent of the car's value.

"French officials decide the value," says Paine. "Altho I had a letter from the makers of my bus that it wasn't worth more than \$125 to them, even as junk, the French valued it at 10,000 francs. And had to put up 6,000 francs, or close to \$500, at that price I didn't dare wreck it!"

WILL RISK LIFE TO
TRAIL LIGHT

Scientists Rush to South Seas
to Study Eclipse

SAN FRANCISCO — (Special) — The whole world of astronomical science is hurrying to remote spots of the South Seas and Antipodes where learned scientists will risk life and health.

To trail a beam of light! Two American expeditions already are under way, taking with them tons of the latest sky-searching apparatus and photographic equipment.

From Berlin is being rushed something absolutely new in telescopes, the work of years in the Zeiss plant at Jena, while a company of German and Dutch astronomers accompany it, headed by Dr. Joseph Hoppman. They are bound for a lonely spot on Christmas Island, in the Fanning group.

The Royal Astronomical Society of England also is sending its envoys to Christmas Island.

On September 21 a total eclipse of the sun will be visible over a narrow ridge 100 kilometers wide, stretching from Cape Gardafui in Africa, thru the Indian Ocean, and on the northwest coast of Australia.

Selection of sites for the tests and photographs to be made in connection with this eclipse are like no other in astronomical history.

Why? Because the men of science are to put the Einstein theory of relativity to its severest test.

What this test will be was explained to The Lima News by Professor W. W. Campbell, of Lick Observatory who heads the American expedition, just before he sailed. The American party will make its observations from the remote 90-mile beach on the northwest coast of Australia.

DRASTIC MEASURES ARE
AIMED AT GERMANY

LONDON—Drastic measures of financial control are provided in Premier Poincare's draft of the conditions under which France is willing that the Reich shall have a moratorium to the end of the present year.

The conditions are understood to include exploitation of the German customs, mines, railroads and forests, control of the Reichsbank and the German bank note press, and supervision of foreign currencies as well as exports and imports. All these would be under the active control of international committees sitting in Berlin.

German industries would have to surrender to the allies 28 per cent and in some cases much more of their capital while as a major measure to enforce compliance, the occupation and expropriation of the Ruhr coal field would be kept in reserve.

VOTERS TO PASS ON KLAN ISSUE

Question Brought to Front in
Arkansas Primary

LITTLE ROCK, Ark. — (Associated Press) — Democratic voters of Arkansas today selected their nominees in seven congressional districts and for state and county offices. Indications pointed to an unusually heavy vote, despite unfavorable weather conditions in some places.

The campaign was continued to the last moment and was one of the most active waged in the state in years, particularly the gubernatorial race between Governor McRae and Judge E. P. Toney of Lakeview.

Governor McRae has stood on his record and advocated strict enforcement of all laws, including those governing Sabbath observance. Judge Toney has attacked the governor's record, particularly in connection with handling of pardon and parole authority.

In the races for state offices, the Ku Klux Klan issue was brought prominently to the front. In a number of counties the Klan endorsement was openly given to some candidates and in a few instances entire Klan tickets were placed in the field.

In only three congressional districts have campaigns been carried on. In the second W. A. Hodges is seeking the nomination against W. A. Oldfield, democratic "whip."

National issues have not figured largely in the campaign. The entire campaign was marked by general apathy until yesterday when an attack by the retiring governor, Thomas E. Kirby, on B. H. Cooper and S. P. Gallard, candidates for re-nomination for public service commissioners, injected some last minute interest into the election.

The Alabama Power Co., entered into the affair when the governor charged that the company was trying to re-elect the commissioners. The latter countered by charging the governor with being the "arch enemy of Henry Ford."

The foremost supporter of the Alabama Power Co. in its efforts to defeat the Ford proposal concerning Muscle Shoals.

W. W. Brandon, candidate for the nomination for governor, expressed confidence in Cobb Graves, his opponent, seemed likewise confident.

Political observers forecast a close race. A heavy vote is expected.

G. O. P. CONVENTION FORT WORTH, Texas — (Associated Press) — Nomination of a complete ticket including candidates for United States senator and governor and adoption of a state platform was the task confronting the Republican state convention here today.

Overshadowing all interest was the nomination which probably would delay until tomorrow of a candidate for senate. Upon the choice will depend much of the party's success in Texas, leaders believed, hope being for a nominee capable not only of commanding all the Republican vote but one that might make serious inroads into the Democratic ballot.

BOY, 7, BECOMES A
PASTOR OF CHURCH

PITTSBURGH, Pa. — The only 7-year-old boy in the world, Howard White Specht, Pittsburgh "child evangelist," has been acting as supply pastor during August in a church near the city.

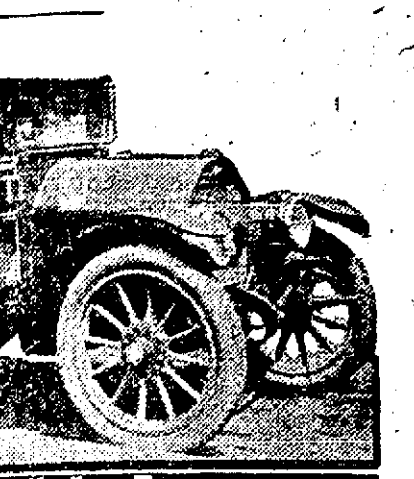

He has preached in half a dozen pulpits previously.

Due allowance being made for the fact that Howard speaks from a child's viewpoint, the boy delivers a strong sermon and his appeals have brought many hearers to the converts' bench at each of his meetings.

Young as he was then, the lad won an honorary warrant for encouraging marine corps enlistments during the war and a Treasury Department medal for Liberty bond sales.

He is a constant Bible reader and his mother is determined to make a clergyman of him. His father is an ex-sergeant of marines, now a street car conductor.

WRECK OF TRAIN PREVENTED BY BOY

HOWARD, Mich. — When Howard Motor, 14 years old, discovered a broken rail on the Pennsylvania track close by his home near here one day recently, he knew the limited train was due shortly, and at first thought it didn't seem to him as if there was a thing handy even remotely resembling a red flag to stop it with.

Then it struck him that the broad red ribbon on her hat might be made to do, and hurriedly tearing it off, he held it up to the train.

How serious an accident he averted of course nobody can say, but the train was coming 50 miles an hour and the rail, broken clean off, was held only by the spikes. Railroad men give the boy credit for preventing what probably would have been a bad wreck.

SHOP GUARDS ARE GIVEN BEATING

Police Believe Assault Perpetrated by Discharged Men

There investigation of first strike violence to occur in this city Monday night showed definitely that no members of the allied crafts participated in an attack on shop guards, a committee of striking railway men declared formally, Tuesday.

Police were also unable to find traces of strikers who participated in the affair. It is their belief that sympathizers were responsible.

Rumors current are to the effect that fifteen guards who are reported to have quit at the B. O. shops a few days ago because of dissatisfaction over working hours, were responsible for the attack upon two new guards employed there recently.

The two men attacked were C. F. Mount and Robert Wamble, of St. Marks, Fla. One of the men, Chief of Police Lankier declared, did not duty for him at one time in Dayton.

They were attacked by a crowd when they were walking to the home of C. H. Kepner, 542 N. West-st, about 9 o'clock. Police arrived at the scene too late to make arrests. The crowd had already dispersed.

The two men were bruised considerably from rough handling accorded them.

ARTERY BURSTED LEHNER DIES

Hemorrhage Brings Death to
Solar Employee

Joseph Lehner, 63, of 804 S. Broadway, died suddenly at his home Tuesday, following bursting of the aorta, a large artery in the throat. Death was due to hemorrhage.

Lehner had been in failing health the past two months. He was an employee of the Solar refinery.

Besides the widow, he is survived by seven children. They are Mrs. Rosa Garrison, St. Johns-av.; Joseph Lehner, Jr., Wendock-av.; Mrs. Emma Langlin, Shreveport, Ohio, and Mary, Elizabeth, John and A. B. Lehner, residing at the family home.

Funeral services will be held Friday at 8:30 a. m., at St. John's Catholic church. Rev. Father Leonard Plumanns will officiate. Interment in Gethsemani.

BAKING COMPANY DENIED LIEN

Ruling by Judge Barnes in Stolzenbach Case

HOLDS CONTRACT NOT LIEN

Accounting not Granted; Stock
Transfer Ordered

Application made by the Stolzenbach Baking Co., to obtain a lien against capital stock issued to John H. Stolzenbach, deceased, to satisfy a claim for \$2,457.20 against Mary Stolzenbach, was denied in an opinion handed down by Judge J. D. Barnes, of Idmoy, in common pleas court, Tuesday.

Judge Barnes decided that a contract between Charles and John H. Stolzenbach could not be so construed as to constitute a lien on the stock.

He also ordered the transfer of 59 shares of par value to Mary Stolzenbach, heir of John H. Stolzenbach, but denied her an accounting; as asked in a cross petition.

The right of appeal was admitted and bond fixed in the sum of \$500. The case was heard on its merits June 28 and taken under advisement by the court.

Claim was made by the baking company on a contract between Charles Stolzenbach and John Stolzenbach, his father, by which the latter was to have \$6,000 interest in the company and the former \$24,000. John H. Stolzenbach was to receive \$800 dividends yearly. In case the concern did not earn that amount, Charles Stolzenbach was to make up the difference. In the event of death of the elder Stolzenbach, his wife was to receive the yearly sum. The money was paid annually, evidence showed.

Later, by agreement, this sum was increased to \$1,300 a year.

Claims were made by the baking company that the deficiency between the actual earnings of the stock and the stipulated sum named in the contract, was paid out of company funds.

CLAIM WAS DENIED When Mary Stolzenbach made demand for transfer of stock in the name of John H. Stolzenbach, it was denied and a claim for \$2,457.20 filed.

The court held that the extra payment should have been made by Charles Stolzenbach, as provided in the contract and not from capital funds of the company.

Judge Barnes gave as his opinion that no lien could be made against the stock. The transfer of stock listed on the company's books as property of John H. Stolzenbach to Mary Stolzenbach was ordered.

FIVE PERSONS STRICKEN
AFTER EATING PIE

PITTSBURGH, Pa. — The "arsenic murder fiend" who slew six and endangered the lives of 100 in New York ten days ago, found five victims here today, in the belief of the police.

The entire family of Romola Taguazza lay stricken with poison received from a cake purchased in New York City at a restaurant, believed to be the Shelby, where four other poisonings took place.

HERE'S RECIPE FOR BEST BREAD

AGNES McKIBBEN

The champion bread baker of Arkansas is Agnes McKibben, 18 and unmarried, Murfreesboro.

In a state-wide contest in which 75 counties each entered 14 contestants, she made the loaf that won the unanimous choice.

This is the recipe she used: 1 tablespoon sugar 1 tablespoon shortening 1 1/2 teaspoons salt 1 cup boiling water 1 cup scalding milk 1 yeast cake 6 cups flour

Put sugar, shortening and salt in bowl and pour over them the hot liquid. Mix yeast cake in one-quarter cup of lukewarm water and stir in the yeast.

Add sifted flour and stir until smooth. Turn dough on a floured board and knead until elastic. Return to bowl, cover, and let stand for two and one-half hours in a warm place.

Turn out and knead again. Shape loaf and place in greased pan. After about one hour, or when dough is double its bulk, bake in a hot oven for 50 to 60 minutes.

Just before taking from oven rub crust with melted butter. Cool where air can circulate freely.

MUTT AND JEFF—MUTT'S A NUISANCE AROUND A CAR—

BRINGING UP FATHER—

—BY M'MANUS

SHORT SHAVINGS

Jim Mackenzie of the Fidelity Coal Co., decided to go in for rose culture. He wanted some to plant in his front yard in American-tp. What kind to get?

That was the question.

There were many shades—red, yellow, white, pink. He decided some at least should be pink.

He went to a florist.

"Got some nice roses?"

"Oh, yes! What variety?"

"Pink roses."

"We've got nice pink roses. You better let us select the bushes for you. We'll see that you get good, selected stock."

"Pink roses are what I want."

"I've got it down—p-n-k."

Jim planted the rose bushes carefully in front of his house. That was in the spring of 1921.

Neighbors stopped.

"What are you planting, Jim?"

"Pink roses."

"How do you know they're pink?"

"Florist picked them out."

"Extra fine, eh?"

"You bet! Fine pink roses. Florist picked them out for me himself."

Jim watered the roses. And sprayed them, and cultivated them carefully.

"They require a lot of attention," said Mackenzie. "That is if they are going to do well."

May, June, July, August, September, October.

"We'll have some fine pink roses next June."

Winter came. Then spring.

April with her varying moods, changing quick from hot to cold. May, June 1 and now August.

"How are the roses coming, Jim?"

"What roses?"

"Why, the pink roses you planted."

"The ones in the front yard?"

"Yes. The pink roses the florist picked out."

"They didn't turn out as we expected."

"No."

"No. They turned out to be gooseberry bushes. We'll have a nice crop of gooseberries."

City hall employees had a good laugh when Irene Clark, assistant to Evan O. Sellers, city auditor, added a long list of figures and totaled them before she noticed there was no paper in the adding machine.

"There was nothing funny in it for me," Irene said. "I had to add them all over again."

NINE-MILE ANTENNA GETS TRANSATLANTIC RADIO

BY PAUL F. GODLEY
America's Foremost Radio Authority
An antenna nine miles long! That's the size of an aerial used on Long Island for trans-Atlantic radio reception. But it is only 15 feet high.

It is of the type known as the "wave-wire" antenna, used in long-distance reception because it comes nearer eliminating static interference than any other form known.

Like any of the long-wire type of antennae, it receives best only from those directions toward which it points. By properly absorbing energy from the wire at one end, the wire can be put into such condition as to receive from one direction only. This is accomplished by the use of a resistance and an earth connection.

When but one wave length long, the wire is quite directional in its characteristics. When two wave lengths long, it is decidedly more directional. The longer it is, the more desirable it becomes as an antenna designed to receive but from one fixed station.

As installed on the Atlantic coast for European communications, little difficulty is now had because of static except that due to local thunderstorms. Even these effects are dodged by the association of several stations spread along the coast from Asbury Park, N. J., to Bar Harbor, Me.

Most thunderstorms originate over land and pass out to sea. Thunderstorms which prevent operation of

the stations on the Jersey coast are unrecorded at Bar Harbor because of the directional characteristics of the antenna there. Thunderstorms at Bar Harbor are usually of insufficient intensity to affect operation of the Jersey coast.

Since all these stations are connected by telegraph, it becomes an easy matter then to shift operations from one to the other. In this way European traffic comes thru with but few interruptions.

RADIO PRIMER
COPPER PYRITE—Copper ore containing iron occurring in several forms. It is used in radio as a low potential rectifier crystal, in conjunction with zincite.

CUPID'S WORK IN GERMANY HIT

Hedged by Soaring Prices of Building Material
MARRIAGES AT LOW MARK

Traditional Home Can't be Provided by Would-be Groom

BERLIN — (Associated Press)—“Feathering one's nest” is a formidable proposition for the young German of today who contemplates matrimony. Furniture and building costs have risen to such heights and wages relatively have sunk to such depths that the strains of wedding marches fail to have much of a siren appeal for either “Hans” or “Gretchen.”

Tradition has long decreed that the young man in Germany is expected to provide a house for his bride-to-be before marriage. The latter, for her part, should approach the altar with a dowry sufficient to furnish her new home with everything from broom to bedstead. Silverware and special comforts for the household ordinarily are contributed by relatives or by guests attending the wedding ceremony.

BUILDING EXPENSES
However, there is little prospect of a German girl in the middle or lower classes living up to this custom today. Depending on earnings of a few hundred marks a week, she finds little to save up for her dowry. On the other hand, the man of her choice—despairing in his search for a place to rent—is forced to consider breach of promise when confronted with present building expenses. After deciding to erect a brand new home for his bride, he finds the prices of building materials are more than 81 times what they were before the war.

It cost 1,584.50 marks on July 1, 1924, to build a one-story cottage covering 70 square meters. On June 1 this year, building circles claim, erection of such a dwelling entailed an expenditure of 129,290 marks. The costs rose 13.8 per cent in May alone.

The stone required for a house of this sort in the summer of 1914 cost 700 marks, while now it demands

an outlay of 50,734 marks. Cement and lime for it now cost 2,306.26 and 5,413.10, respectively, as against 50 and 73 marks before. Its roofing-the costs have risen from 245.50 to 17,919.90 and those for heating from 264 to 24,850, while its flooring today would come to 4,189.75 as compared with 55.50 marks in 1915.

AUTO CLUB MEMBERS TO GIVE CHILDREN'S HOME KIDDIES OUTING AT FAIR

Kiddies of the Allen-co Children's Home will see the county fair August 23, as guests of the Lima Automobile club, Ollie DeWeese, chairman of the committee, announced Tuesday.

The trip to the Allen-co fair is an annual outing for the children at the Home.

They look forward to the fair from year to year and for several weeks have been watching when they are to go, Superintendent C. W. Walters says.

Eighteen to 20 cars furnished by club members will assemble at the Home at 1 p. m. and load up the children. In each car will be a woman to chaperone the charges.

Arriving at the fair grounds the children will be shown the sights, given rides on the merry-go-round and filled up on pop corn, peanuts, candy and lemonade.

Each child will take away a souvenir as a present from the club.

Club members who desire to furnish machines for the trip are asked to phone to club headquarters.

KILLED BY LIGHTNING
ELIZABETH, N. J.—While working in a tree when a severe storm suddenly swept over her, Fern J. Holfort, (nee) surgeon, was instantly killed by lightning. Several others were stunned.

LOSES TWO FINGERS, DIES
NEWARK — Ellsworth Smith, 55, proprietor of a planing mill, who lost two fingers while operating a saw at his plant, was taken to a hospital and died from the effects of the operation.

ASSIGNED TO SURVEY
CINCINNATI — Colonel Charles W. Kuntz, U. S. Engineer in charge of the central division, corps of engineers, has been assigned to make a survey of the various routes for the proposed lake to river canal.

50-YEAR EMPLOYEE DIES
CLEVELAND — Samuel H. Johnson, 75, printer and employee of the Cleveland Plain Dealer for 50 years, died here.

RULING IN CARTON CASE DENOUNCED

Immigration Red Tape Brings About Sharp Criticism

(BY HARRY B. HUNT)

WASHINGTON. — (Special). — Official Washington is aroused over the pitiful case of Mrs. Romi Carton, Belgian woman who with her eight-year-old son was forced by official red tape at Ellis Island to make an extra 4000-mile round trip to Europe in order to gain entry to the United States under a new quota.

Indignation over the Carton case is as intense among supporters of the “quota” immigration law as it is among opponents of the measure.

Senator Frank B. Willis of Ohio, a member of the Senate committee on immigration and a supporter of the “quota” measure, condemned the Carton ruling in the strongest language.

WILLIS TALKS
“Absolutely absurd,” Willis said. “It is such arbitrary rulings as this that create, if not actual disrespect for law, at least an attitude closely bordering on it.”

“I should say that what was needed in this case and what seems to have been wholly lacking in it was just a little bit of common horse sense. It wouldn't have taken very much.”

“As a member of the Senate com-

mittee on immigration, I did a great deal to help enactment of the present law and had not a little to do with getting it law. I want to see its spirit enforced to the fullest degree.”

“But I do not want to see trifling technicalities applied in cases such as this—such absurd technicalities weaken regard for the law.”

“To force this mother and child to make a round trip to Europe in order to enter under a new quota when that quota actually was open

at the time of the ruling is positively silly.”

Mrs. Carton, whose husband has declared his intention of becoming a United States citizen, returned to Belgium from America several months ago to bring their son. She was told before sailing that there would be no difficulty about her readmission if she returned within six months.

On their arrival at Ellis Island, however, immigration authorities declared that because the Belgian quota of immigration for 1934 fiscal year 1922 had been exhausted and because they arrived before the fi-

scal year 1923 had quite arrived, they could not be admitted but would have to go back to Europe and come again.

HAIR-SPLITTING DECISION
“Mrs. Carton would have no difficulty in returning if she had come back alone,” it was explained at the office of Commissioner General Husband, in discussing the basis for the apparently hair-splitting decision.

“She was entitled to return within six months and be admitted.”

“But she returned as the custodian of a person who never had been admitted to the country and who could

not be admitted under the 1922 quota—which was the year of her arrival.”

“Too bad, but law is law and must be enforced,” is the attitude of inspectors and others connected with the Immigration Bureau.

Commissioner General Husband is out of the city and his opinion on the ruling in the Carton case could not be obtained.

SAFETY FIRST!

TROUBLE is, with so many motorists who read about accidents to others, they do not look upon the incidents as salutary lessons to be applied to themselves. Most of us seem to live in a paradise of assumed immunity from accident. It is difficult for anyone to see himself in the same position as another, when it involves being the victim of an accident. Safety first is the game to play.

To the average person, a narrow escape from accident is but an incident. It usually brings no concern about the possibility of something of the same kind occurring again, with more serious results. One cannot always be lucky. It is inevitable that something is going to occur if carelessness is indulged in a sufficient length of time. Play it safe.

There is no intention of frightening anyone. That should not be necessary. But the fact remains that there is too much carelessness in the handling of motor vehicles. Safety first appears to be a forgotten creed by many drivers. One may be fortunate today and unfortunate tomorrow, under similar circumstances.

It is just as easy to be careful as careless. And it is a lot healthier and much less expensive.

WHAT BORES YOU?

YEARs from now, when young men of today will be white-haired and hobbling about on canes, their piping voices will interrupt the conversation in the airplane with this: "I mind the time just like it was yesterday, back there in 1922 when Bell, the inventor of the telephone, died. Strangest part of it all was that in his last years he didn't have any phone in his own house. Said it was a nuisance."

That will interest people of the future more than any other fact about the great inventor, just as it has recently been causing the most talk.

And yet it is a very simple piece of psychology.

A clerk in a candy store soon gets "sick of the sight of it."

The housewife, tho she loves the furnishings of her home, often becomes bored almost beyond endurance by the sight of the ever-present broom and dish-pan.

Small wonder, that Bell became bored and annoyed by the telephone after devoting most of his long life to it.

It corresponds to you, starting jubilantly on a task, but coming down the home stretch with: "If I ever finish this up, I'll never tackle another one."

A kitten never tires of playing with a ball of yarn. A squirrel would be content to run forever in its revolving cage. A toad never wearies of music.

All animal life is more or less contented with routine existence. The difference between it and man is that man alone has the nervous temperament, forever seeking a change, tiring of the old, laboring for the thrill of the new.

This nervousness is what has made man develop into civilization while animal life has plodded along mechanically, without material improvement or progress.

COAL CRISIS

EVEN the most optimistic citizen is inclined to the belief that the country is facing a serious crisis in the coal situation.

A combination of incidents has resulted in a condition that is far from reassuring to the general public that available fuel supplies can be had for the coming winter—at any price.

Very few householders have laid in stores of coal for the coming winter months, dealers state. Long continued strike of miners and

OH, NO-O, NOT IN DOG DAYS!

HEALTH TALKS

Common Sense Ways to Keep Well

CAUSES OF HEADACHES

To many people a headache is just an incident to be borne with patience or dosed with powders and forgotten.

A headache is nature's warning of some physical defect. Taking powders to kill the pain is just like blowing your klaxon to drown the

thunder of an approaching train as you try to cross in front of it.

The thing to do when you have a headache is to look for the real source and then remedy the ailment, which may be merely constipation or indigestion or lack of exercise and ventilation. In the first case, take a purge, give the stomach a rest for a meal or two, then go slow on the quantity of food eaten. If it's lack of exercise and fresh air, take a walk.

There are a dozen or so other ailments that may cause headache.

the consequent curtailment of production from the mines has had its certain effect on the available supply. Added to this is the inability to properly move what little coal there is being mined.

Great stores that were piled up previous to the time of the walkout of the rail workers have been diminished—in many instances exhausted. There is little or no new production to meet the demands. The consequences are inevitable unless there is a break in the tension soon. It means there will be great suffering the coming winter if severe weather conditions prevail.

It also means that industry will be hindered and hampered in a serious manner and that where otherwise the workshops and factories probably would be hives of industry, silence and inaction will prevail. It is a time for serious reflection by all parties interested. The interests of all the people are at stake.

THE TOLL OF WAR

THE first man killed in the World War was Corporal Jules Peugeot, a Frenchman. A monument to him is unveiled with elaborate ceremonies.

Jules was 21 years old, in the flower of his manhood, when a German bullet carried him into eternity. He was typical of the toll of war—young, promising, ambitious, "the best of the lot."

That is the kind of meal the war god loves. Biologist tell you that war makes a nation stronger in the long run. False! War always takes the best.

AS YOU LIKE IT

Saddest words of tongue or pen, "When does school start up again?"

It may sound foolish, but a live wire is never buried in debt.

One thing about summer is you don't have to watch your overcoat.

Never criticize a man's clothes. He may be supporting an auto.

In Berlin, police are wearing steel shirts. Wonder how laundries get the buttons off?

Of course the speeders are reckless, but walkers who stop in the middle of the street ought to put out detour signs.

'ROUND LIMA HOUR BY HOUR

WITH APOLOGIES

BY OH. OH. JACKENRIM
 A Page from the Diary of An Antiquated Reporter: Up and like a crude delt took hoe and spade. And worked betimes in the garden, while waiting breakfast. The ayr fyne and did good appetite give. So in for radishes and

ABE MARTIN

"Don't th' only bargain we know of these days is payin' a box of matches an' gittin' a prize fight. We don't care much for anything Henry Ford says 'less it relates t' autos."

bacon. Out in the brave sunshine, but much talk nowadays of typhoid on the spread. And many in great fear. The newest not so good from Sam Weinfeld at St. Ritas, yet do pray he will again round to and be in brave spirits in which I last saw him. Brown the boulevard, meeting with Paul Steuber, the eminent eye and nose surgeon; in a freshly laundered tropical cloth. At the K. of C. sat Butch Lawlor, the noble baseballist judge. Here for a brief respite from his arduous labors ahead. And bowed to Leander Feltz, the financier; and nodded to Jack Weil, living in super fashion in Col. Gale's ultra apartments.

To the office, whence came many candidates anon, some for and more against the publicity they receive. One brave fighter for office said we didn't know an import election was dawning. And must awake to the salvation of the country. Which election of him as sheriff would do, betimes.

Driving by in his motor coach, the Hon. William L. Mackenzie, an old and tried friend, present and past. In the posse, delivered at the office, a letter from Bro. John with condolences on the tymes. What with this and that, keeping up a Ford and a Nash, a dog and a racehorse, he finds it for the nonce, a hard and trying

game. I must pen him lines, duly advising sales of the dog and the Nash, and putting the racehorse to trucking. Passing Horne's druggery bethot myself to buy a bangle against my wife's upstairs cleaning day, ever a hard task. So, a box of the party brand; and toothpaste for myself.

Lunched, on the remains of a leg o' lamb, the most costly I ever did purchase. And soup we must have from the last of it, so telling the steward of our house.

Met a physician, who operates on the many two and three tymes the morning all week thru. And he, grunting and groaning, over the pain of a molar. Which he had just removed. Over to Prof. Jimmie's to bob my mauve locks, and primp a bit. Few superfolk about and what were, talking of politics and golf, which I do little understand of either. Picked up by a private benzine waggon which delivered me home without charge. There, finding our neighbors, very merry over much vitals and a quarter tierce of home made juices Which none were offered, didst not know their worth.

Passed many, merry and gay in the moonshine and I thot of ye olden tymes bicycle parties to McBeth's. Then hitching up Lizzie, drove about until weary. And so home, and to bed.

Often it's difficult to locate the exact source of trouble.

There may be defective teeth or eyestrain, irritation in the nasal passages or it may be the first evidence of a brain tumor. It may signify disease of the kidneys, or the arteries. It may mean poisoned blood, whether from tea, lead, tobacco or intestinal toxins. It may mean impoverished blood, as in anemia; or fatigues of the nervous system, called neurasthenia.

Often the immediate cause of a headache is over-stimulation of the heart, an accompaniment of a number of organic disturbances, resulting in abnormally high blood pressure within the brain.

The majority of headache remedies contain powerful heart depressants, which bring only temporary relief and leave the heart in a more dangerous state than before. There is always danger in drugs sufficiently strong to depress the heart.

A competent physician usually can tell by a few questions just what the cause is.

POEMS YOU WILL ENJOY

By BERTON BRALEY

FUN

The ordinary boy believes
 That life is chiefly lived for
 play.

He most reluctantly receives
 Advice that points the other
 way.

His lessons pain him to the heart,
 His tasks annoy him, one and
 all.

He wants to let 'em go, and start
 A game of ball.

He reads his books because he must,
 He does his chores with rancor
 grim.

They fill him with a dull disgust,
 Because he wants to go and
 swim.

In duty he will take no pride,
 His labors give him quite a
 pang.

He'd rather toss them all aside
 And join "th' gang."

But we of older growth contrive
 To teach him nobler, higher
 aims.

We fit him properly to strive
 For something bigger than his
 games.

Yet, spite of all that we advise,
 In play alone he takes delight!
 (And in our hearts we realize
 The kid is right!)

ONE thing you'll notice right away you begin to talk to the dealer who shows the Blue Diamond.

You'll hear a note of assurance in all he says about shaving. No "ifs," "buts," or signs of mental reservation.

He has the instrument to demonstrate everything he says—the New Improved Gillette.

A razor and shaving service far in advance of anything you have ever known.

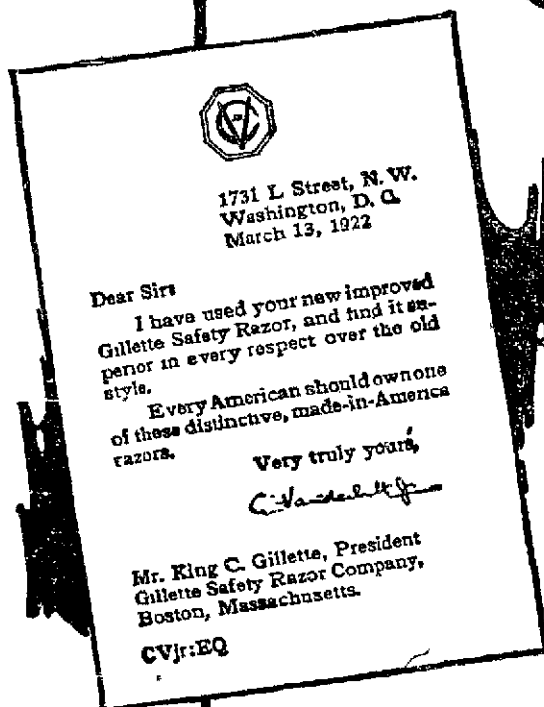

Now—a suggestion:

Bring your old razor with you when you visit the Blue Diamond Store.

These points of superiority about the New Improved Gillette are best appreciated by comparison.

You will know then why the dealer with service ideals is glad of the opportunity to show the Blue Diamond in his window.

STUDYING IS FUN BY NEW PLAN

Los Angeles Professor Has Novel School Method

BY JACK JUNGMEYER.
LOS ANGELES. — (Special).—
Shades of all booby-playing rebels
against painful education—can this
be true?
School as much fun as swimming
and fishing. Kids eager for examina-
tions. No nervousness, heartbreak
or fear of failure. Joyous progress
at twice the old speed.
Dr. A. H. Sutherland has
achieved this marvel on a wholesale
scale in Los Angeles grammar
schools.
His directorship of psychology
and educational research here, and
15 years’ connection with the Uni-
versity of Illinois, Yale and other
big institutions have given him na-
tional repute as scientist and educa-
tor.
With the reopening of grammar
schools in a few days, he’ll put his
principles at work on a still broader
scale.
HOW HE DOES IT
His system, practised in experi-
mental classrooms, abolishes mass
grading, adjusts the curriculum to
individual needs and permits pro-
gress to pupils’ capacity.
“The child’s mental age is first de-
termined,” explains Dr. Sutherland.
“And his lessons are fixed accord-
ingly.”
“He progresses just as fast as he
is able and himself determines when
he is ready for examination for
higher levels.
“Stress, fear, half-learning give
way to joy, self-confidence and real
mental development. There is no
lagging, no malingering. On the
contrary, hitherto backward pupils,
largely so because misplaced, forge
ahead on their own initiative.
“Results spell genuine education.
The notion, fostered by our haphaz-
ard grade rating, that children must
be forced and driven to study, is all
wrong.
“Fit the task, the problems, to
their capacity, and they advance
fully twice as fast as the present
grammar school average.”
During the first 20-week experi-
ment in adjusted individual educa-
tion in Los Angeles, 27 pupils taken
from the second to the fifth grades
made average progress of 39 weeks,
the slowest being 12, the highest 73.
And this represented only half time
study.

Police Court Procedure Is Different Now

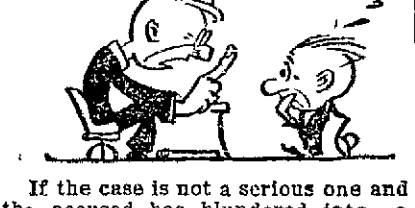

Police courts are conducted some-
what differently these days than in
the past, due to changing conditions
along all lines of procedure, the
adoption of new and more stringent
laws and a move in the direction of
more thorough methods.

It used to be that attorneys or
friends of accused persons would im-
mediately set about trying to gain
the release of a prisoner without
hearing, provided the offense charged
was not of a really serious character.
There is little of that sort of thing
now.

However, prisoners at the bar are
given wider latitude in the matter of
opportunities to gain release from
charges. While the cases before the
court are probably not less numerous,
judges seem to take more time for
inquiring diligently into them. The
prisoner is given every opportunity
to be heard in his own behalf, the
same as of yore, but the court lays
down the bars still further in aid.

If the case is not a serious one and
the accused has blundered into a
violation rather than wilfully trans-
gressed, it is quite common for the
court to dismiss the case, with a lec-
ture for the prisoner that makes the
cold sweat stand out on his fore-
head and induces a resolution to
avoid violation of law in the future.

However, while all of this is true,
it is likewise true that the court is
still required to dispose of numerous
cases of drunkenness. Despite pro-
hibition they still get it and the po-
lice records are cluttered up with
“drunk and disorderly” charges.
And the police operate in the same
old way when the lamp posts begin
to begin to bend for a hapless hootch
absorber.

CHILD WELFARE EXHIBIT IS TO BE MADE AT FAIR

Preliminary plans were mapped
out Tuesday at a meeting in the
Child Welfare association office,
Memorial Hall, for a large fair ex-
hibition of work done by children
at the various recreational centers,
under auspices of the organization.
A large amount of basket weav-
ing is already assembled at head-
quarters for display at the fair.

NEWSPAPERARCHIVE®

THE RED HOUSE MYSTERY

By A. A. MILNE

IT WAS TODAY of the next-door neighbor, who had been found in the locked office of the Red House, a small, two-story building, the door of which had been locked for some time. The door was found open, and the key was found in the lock. The door was found open, and the key was found in the lock. The door was found open, and the key was found in the lock.

It was something in the actual eye, or something in the brain, or what, but I have got rather an ungainly habit of recording things unconsciously. You know that game where you look at a tray full of small objects for three minutes, and then turn away and try to make a list of them. I mean a list of a lot of things, but in some odd way I manage to do it without concentration at all. I should think that's rather a useful gift for an amateur detective. You ought to have gone into the profession before.

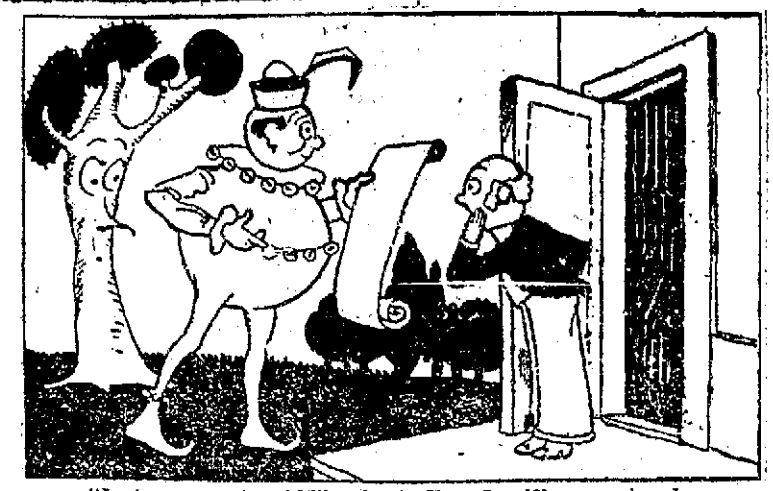

"Well, let's ask him," Antony stopped and looked at Bill. "Let's ask him what he's going to do with the key of the office." For a moment Bill did not understand. "Key of the office?" he said vaguely. "You don't mean Tony? What do you mean? Good God! Do you mean that Cayley—But what about Mark?"

He smiled and went on smoking, waiting hopefully for a two, Bill said in a firm voice, "Holmes, I feel bound if you have deduced any of whom do you suspect?" began to talk. "I remember," he said, "the little scores over the number of steps to Baker Street lodgings. Cayley had been up and down a thousand times, but never thought of counting. As Holmes had counted a matter of course, and there were seventeen, as supposed to be the difference between observation and non-observation. Watson was crushed. Holmes appeared to him more than ever. Now, it was me that in that moment was the ass, and a sensible person. What the point of keeping in an unnecessary foot like a number of steps to your own ring up your landlady. I've been up and down the club steps, but if you asked me, at this moment how many are, I couldn't do it."

"I saw the key of the billiard room," he said. "Because Cayley's got it." "Are you sure?" "Of course, I don't really know that he's got it, but I do know that he had it. I know that. When I didn't want to commit myself definitely to the statement that the key was either outside or inside. He wanted to leave it vague. It was safe, that way."

IS CHIRK CHIPMUNK ILL? SNUFFLES TO FIND OUT

By Olive Roberts Barton

One day Mr. Tingling, the fair-haired landlady, went to call on Snuffles, the fair-haired doctor. Nancy and Nick had helped Mr. Tingling to collect rents and Mr. Tingling, knowing the twins were helping Dr. Snuffles, decided to go to see him on a little business. "Isn't my rent paid?" asked Dr. Snuffles anxiously. "I thought I saw it," said Mr. Tingling. "I thought I saw it," said Mr. Tingling. "I thought I saw it," said Mr. Tingling.

"Isn't my rent paid?" asked Dr. Snuffles anxiously. "I thought I saw it," said Mr. Tingling. "I thought I saw it," said Mr. Tingling. "I thought I saw it," said Mr. Tingling.

CASTORIA

For Infants and Children
In Use For Over 30 Years
Always bears the Signature of *Charles H. Williams*

SPORT
CORES

A painter fell a hundred feet
And lived to tell the tale,
A movie camera was below,
His story now with tale.

Four Milwaukee and Columbus
players were fined for run-ins with
umpires. They are Myatt and Lear,
each \$50 and Burwell and Palmero,
Columbus, each soaked the same
amount.

Ira Thomas, former Philadelphia
athletic catcher, has agreed to pur-
chase for a group of business men
the Shreveport, Texas, league base-
ball franchise.

Rogers Hornsby dropped a fly
ball yesterday and three runs
scored, permitting Boston a 9 to 8
victory.

He stepped up to the pitcher's box.
The crowd yelled out, "FORGET
IT."

The pitcher nodded with his head—
(He knew where he could get it.)

Fifteen women athletes, who will
represent the United States in the
international games at the Pershing
stadium, near Paris, on August 20
arrived in Cherbourg.

First round of play at Philadel-
phia in the national men's invita-
tion tennis tournament saw Willis
Davis, Zeno Schimidtz, Howard
Toswell and Howard Kinsey win
their matches.

Herman and Harry Layne, twin
outfielders of the Bristol club of the
Appalachian league, will join in the
Detroit Tigers at the end of the sea-
son. The only other pair of twins
are Claude Jonnard of the Glens
and Clarence Jonnard, Pirates.

FALL BACK ON
FIELD STARS

NEW YORK — To retain the title
as A. A. U. national champions, the
Los Angeles Athletic Club will
have to fall back entirely upon field
stars this year at the Newark cham-
pionships.

With Paddock declining to make
the trip east, the Los Angeles club
will not have a single outstanding
track man to compete against the
good runners of the east and mid-
west.

Great strength, however, is cen-
tered in their field stars and many
points can be counted on from
Babe Hartman, the intercollegiate
shot-put champion; Clarence
Houser, the intercollegiate weight
thrower; Roy Evans and Johnny
Hogue, two of the "heaviest" of the
1922 Olympic team; Norman Ander-
son, the Southern California discus
thrower; and Alma Richards, the
1912 high jump champion.

Winning on field points alone is
not an unusual task, however, as
was shown at the last intercollegiate
championships when California won
overwhelmingly without track men.

Paddock's decision not to com-
pete in the "nationals" was a great
disappointment. However, the cham-
pion may be seen in a lot of meets
around the east next year as he is
planning to take up newspaper work
in New York.

defeated West Cairo Sunday at
Faurot park, score 12 to 4.

KEN CLOUTS TWO AN INNING; EQUALS RECORD

First Time
Since '94

NEW YORK — Equaling a per-
formance recorded only four
times in the history of the ma-
jor leagues Kenneth Williams, slug-
ging star of the St. Louis Browns,
clouted out two homers in the sixth
inning, his blows figuring promi-
nently in the 16-1 trouncing adminis-
tered to Washington by the American
League leaders. The Browns tallied
nine times in the sixth inning melee.
Williams feat is a new mark for
modern baseball but record books
show it was duplicated thrice in
earliest years. Two members of the
old Boston Nationals, C. Jones in
1880 and R. L. Lowe, in 1894, hit
two homers in an inning while L.
Bierbauer, who played with Brook-
lyn and Buffalo, also is credited
with the achievement in 1890.

RUTH RECOVERS

Babe Ruth who has come into his
own at bat on the present western
tour, was the big gun in the attack
that enabled the Yankees to beat
Pittsburgh 17-10. Cleveland
pounded three Boston twirlers
and won 7-0 in a seven inning
contest. The Chicago White Sox
emerged from their hitting slump
and laced out 17 safe blows to trim
the Athletics 12-5 in the only other
game played.

Rogers Hornsby whose hitting has
been the factor in the winning drive
of the Cardinals, had an off day in
the field and blew his team's chances
to go into first place with two costly
errors. The Braves nosed out
Rickey's men 9-8.

CLEVELAND WINS

Unusually heavy batting also fea-
tured other major league games.
Pittsburgh massed 23 bingles in
trouncing Philadelphia 17-10. Cleve-
land pounded three Boston twirlers
and won 7-0 in a seven inning
contest. The Chicago White Sox
emerged from their hitting slump
and laced out 17 safe blows to trim
the Athletics 12-5 in the only other
game played.

TO NAME U. S.
CUP TEAM

NEW YORK — Four tennis stars
who are to defend America's title as
the champion tennis nation of the
world are to be named Thursday by
the United States Lawn Tennis As-
sociation.

Three of the team will attempt to
keep the famous Davis Cup in the
United States as foregone conclu-
sions as selections. They are Wil-
liam T. Tilden, William M. John-
ston, and Richard Norris Williams.

The fourth member will be either
Vincent Richards, the northern
younger, or Watson Washburn,
the veteran of several Cup battles.

Selection of the team is gone into
with the same care and attention
that a major league baseball man-
ager exercises in handling his pitch-
ers in a world's series.

The records of the players, their
temperament and eccentricities and
their kind of game against the prob-
able challenger are weighed almost
on jeweler's scales. The four play-
ers are supposed to be, and they
come as near as is humanly possible
to being, the maximum strength of
the largest nation in the world.

FIGURE ON AUSIES

The United States is figuring that
Australia will come into the chal-
lenge round against the American
team for the cup and that the re-
sult will hinge largely on the out-
come of the four singles matches.

Tilden and Johnston are sure to
play in the singles and they will be
expected to win three of the four
matches.

Johnston is so frail that he will
not be considered as one of the
doubles pair. Tilden, however, will
play in the doubles if Richards is
nominated. If Washburn is se-
lected, the Williams-Washburn com-
bination will go into the doubles.

While the team has to be named
on August 10, the entries for the
individual matches do not have to
be named until twenty-four hours
before the contest. If anything
should happen to Tilden or John-
ston, Williams will be the "ace in
the hole."

The challenge round consists of
four singles matches and one
doubles match, three out of five
winning the championship and the
cup.

The Davis Cup means more than
a little tennis playing for a rather
historic cup. It means a battle for
the only real world's championship.
No other sport is as universally
played as tennis and in no other
sport can as clear a title to a
world's championship be estab-
lished.

SEEMS SURE
Australia and the United States
seem sure to meet in the challenge
round for the Cup. The Australians
meet the French at Boston in the
semi-final round on August 10, 11
and 12. Even with several brilliant
players, the French on form do not
stand to beat the Australians.

The winner of the match, mostly
likely Australia, will then meet the
Spanish team in Philadelphia on
August 17, 18 and 19 and the win-
ner will go into the challenge
round at Forest Hills against the
Americans.

Against the Americans, the Aus-
tralians should put up a more spiri-
ted fight than the Japanese did last
year, but the prospect looks decid-
edly American. Tilden and Johnston
ought to be in better condition as
they were almost stale last summer
and when they are up on their game
they are almost invincible.

FINGER FOR AN EYE

Some time back blasting out of
the teeth was a popular means of
restoring vitality. Now amputation
of the fingers is becoming the fad.
Recently Jack Night, Pacific Coast
had the middle finger of his left
hand removed to improve his
batting eye.

METALS WIN

Lima Sheet Metal company club
defeated West Cairo Sunday at
Faurot park, score 12 to 4.

Pillette Is Best Rookie Flinger

HERMAN PILLETTE

BY BILLY EVANS
THE American League has un-
covered some mighty fine
young pitchers among the 1922
recruits.

Good pitchers are hard to get. Sel-
dom does one come thru in his
first year. However, in this respect
the American League has been very
fortunate during the present season.

Of all the likely recruits who
have blossomed forth, none stands
out more prominently than Herman
Pillette of the Detroit Tigers.

In spring training Pillette was

simply a pitching recruit. He
wasn't figured on to play any part
in the Tigers' chances. Yet today he
is the pitching ace of the Detroit
staff.

Pillette came to Detroit from Port-
land. Owner Navin paid \$40,000
for him and Johnson. The latter
was the pitcher the Tigers really
wanted. Pillette was thrown in.

Portland finished last in the Pa-
cific Coast League in 1921. With a
fall-end club Pillette won 13 and lost
30 games, a better average than his
team's standing.

Gleason of Washington Pitched Home

Town to Success When Only 14

JOE GLEASON, moundman of the
Washington baseball club, is a
pitcher whom any community
would be glad to claim, but no mat-
ter where he hangs his hat Phelps,
N. Y., is still his home.

Joe was born in Phelps in 1896
and as soon as he was able to tol-
dle he began to whip his right wing
in shape to become a great hurler
of the leather sphere.

During his first years in school
his mastery of the baseball was so
pronounced that the school team
was considered incomplete without
Gleason in the box.

When 14 years of age he had such
control of the ball that he was
drafted by the home town team and
pitched them to success for several
seasons.

Waterloo recognized his prowess
as a pitcher and signed him up for
a season.

ENTERED SERVICE

He graduated from Waterloo to
New Bedford, Mass., then to the
Richmond (Va.) International
League. From Richmond he went
to Shreveport, La., continuing with
that team until 1917 when he joined
the Rainbow division, serving 14
months in France.

After being mustered out of the
service in 1919 he rejoined the
Shreveport team and continued with
that outfit until the close of the
Texas League in 1920 when he book-
ed with the Washington Americans.

Shreveport anxious for Joe's re-
turn in 1921 outbid Washington and

secured his services for the season.

DIG STUFF

Evidently Joe had a hankering
to get into bigger company so when
Washington offered him a contract
for 1921 he accepted.

Joe is a modest, retiring fellow,
and a poor self-advertiser. This
may account for his being held back.
About two years ago, to strength-
en his home ties, Gleason got mar-
ried and, to end it, Phelps never
turned out a more physically perfect
fellow than Joe Gleason.

O'Dowd is
Defeated

DON BAXTER jabbed his way
to a decision over Phil O'Dowd
of Columbus last night on the
Moose card at the ball park. He
crowded the cool Irish lad for all
that was in him and earned the
vote of George Bayly, one of the
judges. The other judge, R. E. Ash-
ley, who officiated in Dr. O. E.
Chenoweth's place, called it a draw
and the final decision was left to
Referee Maxwell, who gave the bout
to Baxter.

The card was slow in comparison
to preceding shows, but two of the
four events ended in knockouts. Kid
Brown sent Dutch Klinger down
for the count in the fourth of their
scheduled six-round bout and Leo
Patterson, the St. Louis colored
boy, laying the old haymaker on
Young Shedd of Cincinnati in the
third of a ten-frame battle.

THOMAS WINS

The other go, an eight-round af-
fair between Joe Thomas, Columbus
and Pinky Bozeman of Toledo, the
latter substituting for Ted White,
ended in a win for the capital city
veteran.

Baxter outpointed O'Dowd in
three of the ten rounds. He took
the first fourth and sixth. O'Dowd
copped the seventh by a great spurt
which brought into play a right
punch which he had not previously
employed. The other rounds were
even, Baxter showing superior ag-
gressiveness, but forestalled by the
effective left jabbing of O'Dowd.

O'Dowd failed to exhibit a right
of much caliber while Baxter slashed
in his usual covers fashion. He
landed heavily with blows to the
head and body in the first and rock-
ed O'Dowd in the third with a long
circling swing to the side of the
head. Baxter repeatedly had him
cowering: almost the ropes. Weights
were even—118 pounds.

SHEDD OUTCLASSED

Shedd is not in Patterson's class.
After tearing in for two rounds,
cutting Shedd's eye and otherwise
damaging his head, Patterson reach-
ed out a long right swing in the
third which barely grazed Shedd's
chin but had enough force behind it
to put him down for the count.
Shedd took eight counts in the sec-
ond.

Thomas and Bozeman laid them-
selves open to much boozing on the
part of fans by milling around with-
out aim in the first several rounds,
but after a warning by Judge Bayly
they settled down and made it a
real scrap, Thomas' superior knowl-
edge counting heavily against the
more awkward Bozeman.

BROKE HAND

The Toledo boy made a good fight
of it, however, and it was announced
afterward that he had fractured a
hand in the second round. The
weight was 128 pounds.

Brown slashed Klinger almost at
will. He had him out several times
on his feet, but finally reached him
with a straight jab to the head
which spells curtains for Dutch.
Brown is a game kid who should
make good in the flat art.

The card was staged under a
threatening sky. Several times it
started to rain, but stopped within a
few minutes. The crowd was small.

TY STILL AT IT

NEW YORK—Ty Cobb, veteran
manager of the Detroit Tigers, is still
setting the pace among the Amer-
ican League battlers. Cobb leads
with an average of .413 and is trail-
ed by Sister, St. Louis, .402; Speak-
er, Cleveland, .364; Hallmann, De-
troit, .357 and Miller, Philadelphia,
.349.

Rogers Hornsby St. Louis star, is
still leading the National League
batters with a mark of .391. Behnke
him are Grimes, Chicago, .363; Hol-
locher, Chicago, .363; Daubert, Cin-
cinnati, .356 and Bigbee, Pittsburgh,
.355.

Detroit is leading the American
League in team hitting with an av-
erage of .311 followed by St. Louis
.299; Cleveland .297 and New York
.291.

New York is the best team batter.
In the National League with a mark
of .311 Pittsburgh is next with .299;
Cincinnati .298 and St. Louis .297.

Aiming at Cup

SIR THOMAS LIPTON

SIR THOMAS LIPTON, famous
Irish sportsman, who for so
many years has figured as a
challenger for the international
yacht races, is soon to come to
America in a new attempt to lift
the "bloomin' mug," as he typifies
the America cup.

This endeavor probably will be Sir
Thomas' last.

He has thrown challenge after
challenge to American yachtsmen
and each time his yacht has been
defeated. It is likely he will change
from the sloop to the schooner type
in building his new boat, which he
expects to have ready soon.

JACK TO TALK
TURKEY

BY HENRY L. FARRELL

NEW YORK—After boating
around the outside edges with his
heavyweight champion on an exhi-
bition tour, Jack Kearns is back in
New York, with his ears ready for
some good Dempsey-Wills fight
bids. Dempsey's manager was lured
back from the cool precincts of the
north by the report that Tex Rick-
ard is getting some rivals on his
hands and competition among the
impressarios means money to the
champion.

Kearns said he was ready to talk
with any promoter who could show
he had the cash and the means of
pulling off the next big heavyweight
fight.

"We've been signed with Wills
for some time and we're being
panned because we are talking about
Brennan, Willard and Carpenter in-
stead of Wills. It is not up to us
now, it's up to the promoters. So
far, we haven't had a single offer
that was made seriously enough to
consider," Kearns said.

While he is in town, Kearns said
he would be at home to any pro-
moter who is ready to talk fight as
big as he wants it talked.

Mullen, O'Dowd Will
Fight Tonight

SIDNEY — Eddie Mullen of Sid-
ney, meets Mickey O'Dowd at Mun-
cie, Ind., tonight in a ten-round de-
cision bout. They met previously, but
the bouts ended in draws.

UPSETS THE DOPE

When Brutus K. Hamilton, Uni-
versity of Missouri star, finished
second in the Olympic decathlon and
third in the pentathlon, no one
would believe that as a ten-year old
boy he was in bed with a bad hip
disease and doctors said he could
never walk.

Only 2-Man
Staff

By BILLY EVANS

INDIVIDUAL supremacy has pre-
vailed for years in the depart-
ment of catching, altho the posi-
tion is more than a one man's job.

However, probably once upon a
time somebody told somebody else
that a catching staff should be com-
posed of one leader with two re-
cruits to fill in.

Such conditions exists with many
major league clubs today. And for
years and years back, too.

Figure for yourself and see what
chance a young catcher has with the
Chicago White Sox with Ray Schalk
around; with the Athletics with Cy-
rus Perkins on the job; with the
Cleveland Indians with Steve
O'Neill, and with the St. Louis
Browns with Iron-Man Hank Se-
verid wearing the mask.

This one-man rule, however, does
not prevail with the Cincinnati
Reds, where Patrick Moran boasts
of what is rated the best two-man
catching staff in the major league
loop.

HERE'S THE CAST

The cast reads: Ivy Wingo and
Eugene Hargrave, alias "Bubbles."
The funny part about this combi-
nation is that Moran and the pitcher
do not pick the catcher for the game.
Then how is it worked?

The pitcher on the other club.

Until Moran receives the name of
the opposing pitcher he does not se-
lect his catcher. And for this rea-
son:

Wingo, a left-handed batter,
catches when the Reds face a right-
handed pitcher.

Hargrave, a right-handed batter,
sits behind the mask when the Reds
go against a southpaw.

There is Branch Rickard of the St.
Louis Cardinals who shifts infield-
ers and outfielders according to the
style of pitching against the Card-
inals, and other managers also ar-
range changes, but this is the only
two-man catching staff in either big
league.

Wingo is as spry today as he was
when he entered the National
League in the summer of 1911. He
remained with the St. Louis Card-
inals until 1915 when he was traded
to the Reds for Miguel Gonzalez. He
was born at Norcross, Ga., July 8,
1880.

MUTT AND JEFF—MUTT'S A NUISANCE AROUND A CAR—

BRINGING UP FATHER—

SHORT SHAVINGS

Jim Mackenzie of the Fidelity Coal Co., decided to go in for rose culture. He wanted some to plant in his front yard in American tip. What kind to get?

That was the question.

There were many shades—red, yellow, white, pink. He decided some at least should be pink.

He went to a florist.

"Got some nice roses?"

"On, yes! What variety?"

"Pink roses."

"We've got nice pink roses. You better let us select the bushes for you. We'll see that you get good, selected stock."

"Pink roses are what I want."

"I've got it down—pink-k."

Jim planted the rose bushes carefully in front of his house. That was in the spring of 1921.

Neighbors stopped.

"What are you planting, Jim?"

"Pink roses."

"How do you know they're pink?"

"Florist picked them out."

"Extra fine, eh?"

"You bet! Fine pink roses. Florist picked them out for me himself."

Jim watered the roses. And sprayed them, and cultivated them carefully. "They require a lot of attention," said Mackenzie. "That is why they are good to do well."

May, June, July, August, September, October.

"We'll have some fine pink roses next June."

Winter came.

Then spring.

April with her varying moods, changing quick from hot to cold. May, June 1, and now August.

"How are the roses coming, Jim?"

"What roses?"

"Why, the pink roses you planted."

"The ones in the front yard?"

"Yes. The pink roses the florist picked out."

"They didn't turn out as we expected."

"No?"

"No. They turned out to be gooseberry bushes. We'll have a nice crop of gooseberries."

City hall employees had a good laugh when Irene Clark, assistant to Evan O. Sellers, city auditor, added a long list of figures and totaled them before she noticed there was no paper in the adding machine.

"There was nothing funny in it for me," Irene said. "I had to add them all over again."

NINE-MILE ANTENNA GETS TRANSATLANTIC RADIO

BY PAUL E. GODLEY
America's Foremost Radio Authority
An antenna nine miles long!

That's the size of an aerial used on Long Island for trans-Atlantic radio reception. But it is only 15 feet high.

It is of the type known as the "wave-wire" antenna, used in long-distance reception because it comes nearer eliminating static interference than any other form known.

Like any of the long-wire type of antennas, it receives best only from those directions toward which it points. By properly absorbing energy from the wire at one end, the wire can be put into such condition as to receive from one direction only. This is accomplished by the use of a resistance and an earth connection.

When but one wave length long, the wire is quite directional in its characteristics. When two wave lengths long, it is decidedly more directional. The longer it is, the more desirable it becomes as an antenna designed to receive but from one fixed station.

As installed on the Atlantic coast for European communications, little difficulty is now had because of static except that due to local thunderstorms. Even these effects are being eliminated by the association of several stations spread along the coast from Asbury Park, N. J., to Bar Harbor, Me.

Most thunderstorms originate over land and pass out to sea. Thunderstorms which prevent operation of

the stations on the Jersey coast are unrecorded at Bar Harbor because of the directional characteristics of the antenna there. Thunderstorms at Bar Harbor are usually of 10-foot length.

Length Equals 1/2 of Wave Length

Resistance to Receiver

HOW A WAVE-WIRE ANTENNA IS PUT UP.

sufficient intensity to affect operation on the Jersey coast.

Since all these stations are connected by telegraph, it becomes an easy matter then to shift operations from one to the other. In this way European traffic comes thru with but few interruptions.

RADIO PRIMER

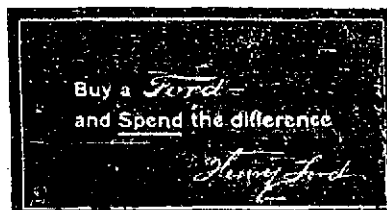

COPPER PYRITE—Copper ore containing iron occurring in several forms. It is used in radio as a low potential rectifier crystal, in conjunction with zincite.

CANARIES GIVE RADIO CONCERT

Radio fans in the San Francisco district recently had the opportunity to tune in on a unique concert given by a group of trained canaries. The birds were trained under the direction of Prof. A. H. Hazlett of Berkeley. Due to the delicate tones of the birds, only those fans with sensitive receivers could pick up the concert, for fine tuning was necessary.

Children Cry FOR FLETCHER'S CASTORIA

CHANGE OF LIFE WOMAN'S TRIAL

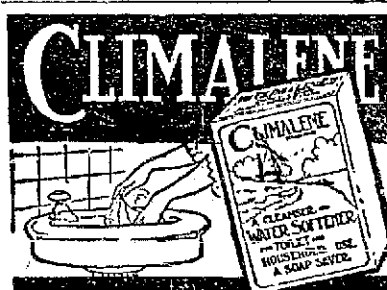

Proof That Lydia E. Pinkham's Vegetable Compound is of Great Help at This Period

Metropolis, Illinois.—"I have taken Lydia E. Pinkham's Vegetable Compound and it is all it claims to be and has benefited me wonderfully. I had been sick for eight months with a trouble which confined me to my bed and was only able to be up part of the time, when I was advised by a friend, Mrs. Smith, to try Lydia E. Pinkham's Vegetable Compound and Liver Pills. I was so much benefited by the use of these medicines that I was able to be up and about in two weeks. I was at the Change of Life when I began taking the medicines and I passed over that time without any trouble. Now I am hale and hearty, do all my housework, washing, ironing, scrubbing, and cooking, all there is to do about a house, and can walk two or three miles without getting too tired. I know of several of my neighbors who have been helped by your medicines."

Mrs. EMMA CULVER, 705 E. 7th St., Metropolis, Illinois.

Depend upon Lydia E. Pinkham's Vegetable Compound. Nervousness, irritability, heat flashes, headache and dizziness, are relieved by this splendid medicine.

Cleaning Fine Fabrics

For laces, delicate chiffons, crepes, etc., use warm water to which a little Climalene has been added, and pure white soap. Do not rub the clothes but cleanse by dipping up and down repeatedly.

SHERIFF'S SALE
Ex. Dec. 31, Case No. 20348
ALICE M. GEIB, PI
VS
MARGARET M. HOFFER, Defendant.
Allen Common Pl.
By virtue of writ of Sale, the Court of Common Pleas County, Ohio, and to me do offer for sale at the Court House, in Lima, Ohio, on

NOTICE TO CONTRACTORS
Notice is hereby given that the Board of County Commissioners of Allen County, Ohio, will receive sealed proposals, in the office of the Board of the Court House, at Lima, Ohio, up to and until twelve (12) o'clock noon, on THURSDAY, AUGUST 10, 1922, for the furnishing of all labor and material for the construction of a base and top over the Elm Street Bridge in Lima, Ohio from the R. & O. Railroad to a point six hundred and seventy-two feet east.

Bids will be received on Brick pavement, Reinforced Concrete pavement, Asphalt Block pavement & Asphalt Concrete pavement according to plans, profiles, cross-sections, and specifications now on file in the office of the County Surveyor at Lima, Ohio.

Each bid must be accompanied with a bid bond in the sum of Five Hundred (\$500.00) Dollars, drawn payable to Glen I. Wallace, clerk of the Board of Commissioners of Allen County, Ohio, which will be forfeited to said County upon failure of the successful bidder to enter into a contract with said County within ten (10) days after said award.

The successful bidder will be required to give a satisfactory bond in the full amount of the contract price, for the payment of all labor and materials, as required by law.

All proposals must be made upon blanks furnished by the County Surveyor or an all proposals must be submitted in sealed envelopes with the name of the bidder on same.

Payments are to be made as the work progresses upon estimates submitted by the County Surveyor of eighty-five (85%) per cent of the cost of labor and materials and the balance of fifteen (15%) per cent to be reserved for the completion of the work and payable when the work is completed and accepted.

All work done under the supervision of W. R. Toy, County Surveyor of Allen County, Ohio.

The Commissioners reserve the right to reject any and all bids by order of the Board of County Commissioners of Allen County, Ohio.

By GLEN I. WALLACE, Clerk.

2-15-1922.
